

Alicia Walsh, D.V.M.
Laurie Prange, D.V.M.

PET OWNERS WANT their dogs and cats to have long, joyful lives, and Acadian Oaks Pet Clinic has been helping pet owners in Baton Rouge achieve that goal for almost 30 years.

Dr. Alicia Walsh opened the clinic's doors in 1985 and was joined by Dr. Laurie Prange in 2004. The full-service veterinary hospital focuses on close, personal attention to pets and their guardians. Acadian Oaks offers a range of services including internal medicine, surgery, dentistry, and assisting owners with the special needs of senior pets. Dr. Prange and Dr. Walsh stay up-to-date on the latest veterinary medical advances, helping owners understand all aspects of pet health and preventive care.

An enthusiastic staff makes patients feel welcome in the clean, attractive office, a short 15-minute drive from the LSU area. Located on North Boulevard between South Acadian and South Foster, Acadian Oaks is proud to be part of Mid City's flourishing arts and design district with its rich history and many family-owned businesses.

Dr. Walsh and Dr. Prange are members of the American, Louisiana, and Baton Rouge Area Veterinary Medical Associations, while Dr. Walsh is a past president of BRAVMA and a former board member of LVMA, Mid City Merchants, and Women Business Owners Association of Baton Rouge.
